MPO RESOLUTION 2026-12

A RESOLUTION APPROVING THE FISCAL YEAR (FY) 2028-2032 LIST OF PRIORITY PROJECTS

WHEREAS, the Palm Beach Metropolitan Planning Organization (MPO) is the designated and duly constituted body responsible for the urban transportation planning process for Palm Beach County; and

WHEREAS, pursuant to §339.175(8), F.S., the MPO is responsible for developing, annually, a List of Priority Projects (LOPP) and submitting the list to District 4 of the Florida Department of Transportation (FDOT) by August 1 of each year; and

WHEREAS, the LOPP communicates the MPO's priorities for consideration during development of FDOT's Five-Year Work Program and subsequently informs development of the MPO's Transportation Improvement Program; and

WHEREAS, the LOPP was developed using the MPO's adopted project prioritization process and evaluation criteria, consistent with the adopted Long Range Transportation Plan and informed by the annual call for projects; and

WHEREAS, project phases identified in the LOPP are prioritized to guide programming decisions, recognizing that implementation schedules may vary based on project readiness, production schedules, funding availability, project complexity, and cost estimates; and

WHEREAS, inclusion of a project or project phase in the LOPP does not guarantee funding but establishes the MPO's priorities for consideration in future programming decisions.

NOW THEREFORE, BE IT RESOLVED BY THE PALM BEACH MPO THAT:

SECTION 1. The foregoing recitals are hereby adopted and declared to be true and correct and are incorporated herein.

SECTION 2. The MPO Governing Board hereby approves the FY 2028 - 2032 List of Priority Projects, attached hereto as "Exhibit A" and by this reference incorporated herein.

SECTION 3. This Resolution shall take effect upon adoption.

The foregoing Resolution was offered by Michael Napoleone who moved its adoption. The motion was seconded by Marci Woodward, and upon being put to a vote, the motion passed. The Chair thereupon declared the Resolution duly adopted this 16th day of July 2026.

WHAT IS THE LIST OF PRIORITY PROJECTS (LOPP)?

The development of the next 5-Year Transportation Improvement Program (TIP) begins with MPO Board approval of a List of Priority Projects (LOPP). Pursuant to s. 339.175(8), F.S., the MPO must transmit the project list to the Florida Department of Transportation (FDOT) by August 1 of each year. FDOT uses the LOPP to develop its Five-Year Work Program, and the MPO subsequently uses the final work program to develop the TIP.

Existing MPO priorities that have not yet been implemented continue to be shown on the project list. If the lead agency for a Priority Project cannot complete the programmed phase and advance the project to the next logical phase, it is incumbent upon the agency to provide an explanation to the Palm Beach MPO. Changes to the priority list from the previously adopted priority list are identified by underlines and ~~striketroughs~~ in the following tables.

The MPO prepared the following LOPP, which is multimodal in nature, and provides overall direction to FDOT in allocating funds. The public involvement process includes presentation and discussion of the project list at meetings open to the public; agendas for these meetings are posted on the MPO website. The LOPP will be reviewed by the Technical Advisory Committee and Citizens Advisory Committee (July 1, 2026), and Vision Zero Advisory Committee (July 2, 2026). The MPO Governing Board is expected to adopt the Annual LOPP at the meeting on July 16, 2026.

PROJECT SELECTION PROCESS

Projects begin from identification in the MPO's adopted [Long Range Transportation Plan \(LRTP\)](#). The projects are screened for alignment with the LRTP's Goals, Objectives, Strategies, and Performance Measures. Non-motorized, small-scale projects may also be submitted through the Transportation Alternatives (TA) program that aligns with the LRTP.

To be prioritized and programmed into the TIP for construction, projects require detailed scope creation, including precise limits, detailed description, and engineering cost estimates. Projects must also demonstrate local jurisdiction support, identify a constructing entity, identify ongoing operations & maintenance, and undergo a field review.

Projects are ordered by the year the project was first prioritized, followed by the prioritization in that specific year. For example, 20-1 indicates the year 2020 and the top-ranking (first) priority project from 2020.

Long Range Transportation Plan (LRTP) to Transportation Improvement Program (TIP) Process

AVAILABLE FUNDING SOURCES

The Federal and State funding sources below are based on long-range revenue forecasts from the MPO's Long Range Transportation Plan (LRTP) and FDOT's Work Program Fund Allocation tables. Federal transportation funding is provided through Federal Transportation Authorizations and subsequent annual appropriations. Long-range forecasts assume similar funding levels to current authorizations and are subject to change. Funding programmed for MPO Priorities may vary year-to-year depending on available revenues, project complexity, and costs.

Programs and Funding Sources	Annual Anticipated Funding
Major Projects Projects originate from line-item Cost Feasible projects in the MPO's 2050 LRTP and align with Goals of Safe, Efficient, Connected, Multimodal, and Resilient. Available funding is typically programmed in the "New 5 th Year" - FY 2032.	~\$40,340,000
Sources ■ Surface Transportation Block Grant – Urban Area (SU) Federal formula funds to urbanized areas for use on the federal-aid eligible network.	~\$23,800,000
■ State Highway System Funds State funds for use on the state highway system that are not on the Strategic Intermodal System (SIS). Typical funding source is Districted Dedicated Revenue (DDR). Projects are coordinated and typically administered by FDOT.	~\$16,540,000
Transportation Alternatives (TA) Projects originate from the annual TA application process. The application process can be found at PalmBeachMPO.org/TA . Available funding programmed in the 3 rd year – FY 2030.	~\$5,100,000
Sources ■ Transportation Alternatives – Urban Area (TALU) Federal formula funds to urbanized areas to use for non-motorized transportation.	~\$3,500,000
■ Transportation Alternatives – Any Area (TALT) Federal formula funds to the State to use for non-motorized transportation.	~\$1,600,000

Other Major Funding Sources Pursued for MPO Priorities

The MPO, FDOT, and local partners continuously coordinate to pursue other federal and state revenue sources. Common funding programs outside of the anticipated sources include, but are not limited to:

- | | |
|--|--|
| ■ Surface Transportation Block Grant – Any Area (SA) | ■ Shared-Use Network (SUN) Trails |
| ■ Highway Safety Improvement Program – Local (HSIP) | ■ County Incentive Grant Program (CIGP) |

| | ■ Transp. Regional Incentive Program (TRIP) |

SUMMARY OF MPO REQUESTS

	Total (\$ millions)
<u>Major Projects</u>	
Anticipated Funding	\$40,340
Major Projects Request	\$77,579
Additional Long Range Funding Needs	\$110,865
 <u>Transportation Alternatives</u>	
Anticipated Funding	\$5,100
Transportation Alternatives Request	\$10,500

The following summary tables provide the status and funding requests of MPO Priority Projects.

- **MPO Major Projects**
- **Transportation Alternatives**
- **Shared-Use Network (SUN) Trail Priorities**
- **Active and Under Construction MPO Priorities**

Projects are shown by priority year and ranking, along with the funding amount and phase. A typical project may include a Feasibility or Planning Study (PL), Project Development and Environment (PD&E) phase, a Design (PE) phase, a Right of Way (ROW) phase and a Construction (CST) phase. An explanation of all potential project phases included in the TIP is provided below.

Project Phases

Table 1: Major Projects

Projects originate from line-item Cost Feasible projects in the MPO's 2050 LRTP. The MPO "oversubscribes" to ensure programming of all available funds. The MPO pursues additional fed/state sources depending on project eligibility.
